Agriculture has received telegraphic crop reports as follows: New England-Weather favorable, and farm work

generally begun; grass starting well.

New York—Fine weather; some oats sown; on Long
Island potato planting is nearly finished; sugar season New Jersey-Wheat, rye, and grass improving con-

potatoes planted; winter grain and grasses making fair progress; tobacco plants looking well. Maryland-Wheat, onts, and rye promising: tobacco

plants plentiful and healthy.

North Carolina-Fresheis prevented planting of rice; frosts caused slight damage on low ground. South Carolina—Weather too cool for growing crops; planting delayed by heavy rains.
Georgia-Cotton planting progressing: Immens

fruit crop seems assured. Florida-Cool weather and lack of rain prevented rapid development of crops; vegetable shipments in creasing; prospects for abundant crops of fruits

Alabama-Corn making good stands; cotton two thirds planted and some up; cats, wheat, rye, and pastures improved; vegetables and fruit excellent. Mississippi-Corn all planted, except in north, and otton planting nearing completion in south and mid uisiana—Cool nights and dry weather unfavora o germination, and crop conditions backward in

ble to germination, and crop conditions backward in consequence.

Texas—Drought continues over the southern por-tions; cotion planting retarded by dry weather; oat and corn erops suffering for rain over southern Texas. Arkansas—Cotton planting general, and most of the erop planted in south portion; corn coming up well; wheat and oats doing fairly well; fruit prospect

wheat and oats doing tarry wheat and vegetation growing rapidly; most of the corn. Is planted; cut worms numerous an extensive, to hoace plants plensiful; in the planted; cut worms numerous an extensive to hoace plants plensiful; is numery—all crops making slow beadway; corn planting about completed in western counties; wheat, oats, and grasses look well.

Missourf—Drought continues in some counties; corn planting progressing well; cotton planting commenced; wheat and oats look well.

Illinois—Too cool and dry for good growth of vegetation; in southern section there were more liberal rains.

rains.
Indiana-Cold weather and deficient rainfall, not some corn planted, Michigan—Oats and spring wheat sown and some potatoes planted in southern part of State; warm raths much needed.

potstoes planted in southern part of state; warm rains much needed.

Wisconsin—Oats and barley mostly sown and coming up nicely; potatoes being planted; little improvement in winter wheat, the crop generally complete failure; rain greatly needed.

Iowa—Corn planting begun in some districts; early sown cereals well sprouted and show excellent stand. Minnesota—Seeding of small grain, except flax, learly finished; potato planting begun; more rain would be beneficial.

North Dakota—Drought broken by rains and seeding progressing rapidly; early sown grain up and looking well.

well.

Washington-More rain needed in eastern section; in hop district all is favorable.

Oregon-Seeding completed; all fruits and berries blooming; rain needed east of Cascades; very successful lambing season.

California-Excessive heat with deficient moisture and drying north winds detrimental to grain and feed; rain baddy needed for all crops; haying progressing and crop good.

SHOE AND LEATHER BANK STEAL. No Change of Officers Yesterday-Examiner

The directors of the National Shoe and Leather Bank held a meeting yesterday at which it was rumored that a sweeping change in the officers would be made. The retirement of President Crane and other officers, it was rumored, would be discussed, but evidently nothing was done. for the meeting lasted only a short time and was then adjourned until Friday next. One of the directors said afterward that only routine business was discussed, and that the Aymar defalcation was not mentioned.

Cashier Cole said yesterday that it was his

pinion that Aymar had a confederate, but that neither he nor any of the other officials believed that Baker, who worked with Seeley, was the man. The bank has not suffered any loss of confidence on the part of its depositors since the discovery of the Aymar defalcation, according to Cashier Cole, and since that incident has received forty new depositors. Its depositis aggregate some \$4,000,000, he says, which is more than at any time since the Seeley defalcation. Hank Examiner Kimball made a statement yesterday regarding the Aymar defalcation. Mr. Kimball said that the criticisms of himself had all emanated from persons who could not have been familiar with the banking business. Anybody who knew anything about such matters, he said, could understand perfectly how Aymar could conceal his defalcation from even a bank examiner. man. The bank has not suffered any loss of

Aymar could conceal his defaication from even a bank examiner.

"It is not true that I am to begin another examination of the bank's books," he said, "I be have not been asked to, and I don't think one necessary. Banking people know in examinations just how much workcan be done and just how much cannot, and on that ground I take it that my crities are not men acquainted with the business. No examiner is required to examine it. business. No examiner is required with the all of the original entries of a bank. It would take him a lifetime to do it. He simply takes the books of a bank as he finds them, and must depend on the officers of the banks as to the actual machinery.

"In proving the liabilities of a bank he has to rely on the books and accounts. It is only when specific wrong is suspected that.

In proving the habilities of a bank he has to rely on the books and accounts. It is only when specific wrong is suspected that he goes back to the original entries. Now, in Aymar's case the whole blame lay with the officers of the bank and the lax system of bookkeeping that they employed. Aymar must have had access to the books or else the accounts could not have been fixed up. With proper caution such a defaication could never have occurred in the bank."

LOCAL BUSINESS TROUBLES.

Attachments Granted Against the McGall Brothers of Orange Valley.

Conklin Smith and Peter F. Manning, who did business as Smith & Manning and the Smith Manufacturing Company, dealers in hats, um-Barciay street, and 112 East 125th street, made an assignment yesterday to Charles L. Furey, giving preferences for \$3,895 to the J. Rummell

giving preferences for \$3,895 to the J. Rummell Company of Newark for \$3,466, Charles F. Napier of Brooklyn \$301, and J. Boiton Winpenny of Philadelphia for \$128. They have been in business several years, and falled sept. 1, 1893, with liabilities of \$23,207 and actual assets of \$14,431, and compromised, it was said, at 60 cents on the dollar.

Henry B. Oakman and Harry M. Shaw, doing business as the Oakman Electric Company, manufacturers of electric specialties and appplies at 136 Liberty street, made an assignment yesterday to Wm. D. Murray of Plainfield, N. J. Mr. Oakman represented a Baltimore company here for several years and started the present firm in September last, claiming to have invested \$5,000 in the business.

Deputy Sheriff Mulvaney yesterday received an execution against Absolomon W. Dieter, formerly proprietor of the Hotel Gladys, at Columbia avenus and Seventy-fifth street, for \$4.707 in favor of Wm. H. Gelshenen, for rent for November and December, 1893, and on a note for \$2,500.

\$2.500.

Deputy Sheriff McGivney yesterday received two attachments for \$7.635 against McGail Brothers, hat manufacturers of Orange Valley, N. J. in favor of Adolph Wimpfheimer & Co. for \$5.882 and Waiter H. Graef & Co. for \$753. The partners are William J. and Quintin McGail. It is stated that they have placed a chattel mortgage on their plant for \$80,000. They wend their factory property and other real estate which they heretofore valued at \$230,000, and two years ago they claimed a capital of \$280,000.

OTTAWA, Ontario, April 23.—It is said here that the basis upon which negotiations will take place between Great Britain and France for the ettlement of the French shore question in Newfoundland is that exclusive rights for fishery purposes shall be given to France on the west-ern coast of Newfoundland for a distance of forty to fifty miles. At the present time France has by treaty fishing rights on the shore line of 425 miles, viz., from Cape Ray to Cape St. John. If some such arrangement as that men-tioned is consummated, it will mean the with-drawal of France's jurisdiction from 375 miles of coast. The total population, all British, of the French shore portion of Newfoundland two years ago was 12,873.

That Tired Feeling

Is Nature's wayning that your blood needs attention at this season. It has lost its richness and vitality and every function of the body suf-fers in consequence.

Hood's Sarsaparilla

Will give pure rich blood and will thus tone and strengthen he whole system and completely overcome that red feeling.

the percentage of the production of coal that should be allowed that company, stimulated buying of the anthracite shares, and particularly of Reading securities. This movement started fresh buying throughout the list. It is an interesting fact that the heaviest trading was in stocks not affected by the condition of the anthracite coal trade-namely, Chi-cago Gas and Sugar Refining-and that the greatest net gains were in other stocks—namely, all of the Granger shares, Man-hattan Railway, Missouri Pacific, Louisville and Nashville, and C., C., C. and St. Louis. The last named was more extensively dealt in than it has been for a long time. The advance in it, as in many other stocks, seemed to be due to a 20 Ch & Erie Inc... paucity of offerings rather than to efforts to 5 So Pac of Calen. 2 Fig. L & B S 181. 97

place the stock upon a higher level. There was a fair amount of trading in South-ern Railway, Kansas and Texas preferred, Louisville, New Albany and Chicago preferred, and New York and New England. The last was one of the few stocks that closed fractionally lower than yesterday. London was a fairly liberal buyer of both stocks and bonds. An interesting statement as to the attitude of foreign dealers toward American securities is printed further on in this column. Late in the day advices were received from Chicago that attempts were being made to secure legislation in Illinois that will enable the Chicago gas companies to formally consolidate. The closing was strong

Net carnings. \$200,169 \$234.306 Dec. \$84.187 The New York News Bureau published the following to-day: "The correspondents here of one of the largest banking houses in Berlin asked by cable yesterday for information as to the feeling at that centre toward American securities. They were prompted to make this inquiry

by the fact that their buying orders from Berlin have recently been steadily increasing. The answer received was that the sentiment there is more favorable toward American securities than it has been and that it is expected to continue; at the same time, the demand for those securities would doubtless be governed entirely by developments here. In conclusion the cable stated that as aubstantial grounds appeared here for a decided improvement in prices the German market was prepared to be responsive. Bankers acquainted with the facts say that the full force of a change for the better in the European attitude toward American securities has by no means been felt. But every letter and cable from the centres of capital abroad indicate a steady growth in the interest in the situation in the United States, and the very shrewdness with which the foreign element watches the Gevelopment of actual progress in America before making ventures on a large scale assures the power and permanency of the investment spirit if it is once turned this way to any important extent. The almost riotous bull market, which for months have been carried on in London and in Parls in African mining shares, and which appears to be again in operation, gives an idea of what might happen if the pent-up reservoir of European canutal once overflowed into the American market. There is some anxiety as to the political situation abroad, but if this be removed by a more favorable change in the aspect of affairs, correspondents of foreign houses here look for a return of buoyancy on the part of English and Continental investors."

Members of the reorganization committee of the Atchison Raliroad state that there is no truth in the report of a settlement with the St. Louis and San Francisco boudholders. The same denial is made by representatives of \$24,000,000 San Francisco bondo. These last argue that the company, free from entanglements with the Atchison and the Atlantic and Pacific, is perfectly solvent, and they declare their intention of keeping the San Francisco system intact.

There has been a further decrease in the percentage of transactions cleared through the New York Stock Exchange Clearing House. This change in the face of larger trading is evidence that a larger proportion of the transactions than formerly are actual purchases. A few weeks ago the percentage of transactions cleared was about 85 % cent. It is now down to 65 % cent. The dealings in fractional lots are increasing in a way that suggests speculative transactions, due to the fact that patrons of bucket shops are beginning to discover that though it may cost a little more to trade on the Stock Exchange they are sure of their capital and profits.

and profits.

The receipts of the Government to-day were:
Customs, \$242,330; internal revenue, \$145,480,
and miscellaneous, \$8,481, a total of \$396,292.
The disbursements, including \$151,000 for pensions, were \$540,693, being an excess of expenditures over receipts of \$144,401. The net assets of the Treasury at the close of business to-day, as officially computed, compare with those of Saturday as follows:

that yesterday's conference between officials of the anthracite coal companies was barren of de-Gold coin and huilion. \$00,786,868 \$0,835,890 \$0.102,248 \$0.183,212 \$0.182,248 \$0.183,212 \$0.182,248 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,212 \$0.183,213 \$0.183,21 fessional element, on the theory that a reaction dull, thus furnishing unmistakable evidence of last hour trustworthy reports that efforts to

INSURE YOUR TITLE.

From N. Y. Herald, March 19, 1895. "MADE HOMELESS BY AN ERRON.

Judge B-own Cecides Against Purchasers of Land in Mamaroncok. Owing to a copylat's error in recording the boundaries of a piece of land in Mamaroneck, owned by Hawley D. Clapp, about forty residents of that place find that they will have to pay a second time for the land they bought, and will also be obliged to give bonds for payment of rent for houses which they

This is the effect of a decision just rendered by Judge Brown, of the Supreme Court, in Brooklyn. The property was purchased through a lawyer who guaranteed the deeds. He did not discover the mistake of the copyist when the land was trans-terred. He died recently in Canada, and it is said his death was due in a large meas-ure to worriment over the consequences of the error. His estate is to be attached by the Mamarcneck citizens. The total amount involved reaches nearly \$400,000."

KANSAS PACIFIC CONSOLIDATED

First Mortgage Bonds.

The undersigned, at the request of a large number of the holders of the Consolidated First Strigges of the particular of the Consolidated First Strigges on the protection of the bondholders and the enforcement of their rights. The existing condition of the Kansus Pacific Company and the Union Pacific Railway, the necessity for the proper application of the just proportion of the income of the mortgaged properties to the interest upon the Consolidated Bonds, and the protection and unforcement of the principal render it necessary that the bondholders should at once units for mutual protection. A bondholders' agreement has been prepared for signature and deposited with the Mercantile Trust Company, which will issue certificates upon deposit of bonds. Copies of this agreement may be obtained from the Secretary, or from the Mercantile Trust Company.
